Boat Insurance

For many Years Chase Watersports Centre has had a preferred insurance provider for the club and its members because of the high safety standards required by the club for members to hold driving licences people who insure the boats with Euromarine have found reductions in there policy costs. The partnership between Euromarine & the club has allowed us to know that people using the lake have all the relevant cover required when using there boat if ever there was a accident to happen. The club also receives a Commission of 10% of your insurance premium back into the club funds. From this year we will once again be policing and enforcing this. All members who are not insured with Euromarine are required to pay the club 10% of there premium from there current insurance company. If you not currently insured with Euromarine call **T:01843 603345** and let them know you are a member of Chase Watersports centre to receive the relevant discount.
